Leadership Class 2009-2010

Leadership Fond du Lac Mission

*To assist in the preparation of a strong, diverse
group of leaders qualified to represent
our communities
and willing to make responsible decisions
affecting both the public and private sectors.*

From the Fond du Lac Area Association of Commerce Board Chair:

This is no small thing, your accomplishment. After nine months, countless cups of coffee and probably more slices of pizza than you would like to admit, you've come to the end of your formal Leadership Fond du Lac training. I speak for the Fond du Lac Area Association of Commerce Board of Directors when I extend our hearty congratulations for your accomplishments.

While it may feel like something is coming to an end, actually your Leadership Completion is designed to be your best beginning. You now have the knowledge and connections to make a real difference. You have demonstrated – in so many ways – that you are the people this community will rely on.

And we need you. Fond du Lac and its surrounding area is not alone in its challenges and difficulties. But no one ever said that leading a community into better times was an easy task. Too many public offices go unchallenged. Too many non-profit boards and committees suffer from overworked volunteers. Too many task forces are struggling to fill seats.

We hope you take this opportunity to reflect on how you can take what you've learned these last nine months and leverage that knowledge, those connections and new relationships into a personal commitment to help improve our communities.

Your work and your dedication have been an inspiration to the Association of Commerce.

And we thank you.

Congratulations and best wishes to all of you!

Alan Hathaway, Chair
Fond du Lac Area Association of Commerce Board of Directors

From the Leadership Fond du Lac Board Chair:

The primary goal of Leadership Fond du Lac is to develop an understanding of how government, protective services, health care, education, economic development and social services collectively form the foundation of our community.

The class members we are honoring this evening, like the dozens before them, have learned how all these components work together to provide quality of life and prosperity for a community. Their journey is far from complete. They now will be challenged and encouraged to reach out and take a more active role to become a new generation of leaders.

The 2009-2010 Leadership class been eager to learn about Fond du Lac and enthusiastic to accept new challenges. From the day of their kickoff retreat through the many program sessions, friendships developed and project concepts blossomed.

This also was a year of transition for the Leadership program. We welcomed our new Director Lesley Manowske and several new members to the Board. An initiative to refine the various curriculums was launched to insure program continuity and relationships. A major component of that task has been to guide and mentor our valuable program resources: the many teachers and presenters who share knowledge and experiences.

All of us should be proud this evening as we hear from the teams and listen as they enthusiastically share their project visions and accomplishments. It will be clear to you that they are fully charged and ready to give back to their community as they take on new roles.

Congratulations to the Leadership Fond du Lac class of 2009-2010. We hope your expectations have been met and your ability to embrace leadership strengthened.

* Leadership alumni

Carol Hyland

Modest and self-effacing, the 2010 recipient of the Donald G. Jones Leadership Alumni Award is one of those people who is uncomfortable with accolades. Yet if you spend any time at all getting to know Carol Hyland, you realize that this is a woman who leads by example, sets a very high standard and quietly gets the job done.

The award has been presented annually since 2001, recognizing a Leadership grad for the work they've done to improve their community through volunteering and employing leadership skills. The award's namesake is a former

area businessman who played a major role in founding and supporting the Leadership Fond du Lac program.

Hyland is president and CEO of Consultants Laboratory of Wisconsin, a position she's held since 1999 with an organization she's worked for since arriving in Fond du Lac with husband Bob in 1972.

Hyland credits her year in the Leadership program – she was a member of the class of 2002 – for jump-starting her community involvement. Her Leadership team created the Children's Museum – a massive project and major accomplishment.

"Before Leadership," Hyland said. "I thought volunteering was for 'all those other people.' It made me realize – through learning about the community – that there was a lot that I could do."

The Children's Museum, in fact, opened Hyland's eyes to just how much impact she could have by volunteering.

"I saw how things work, how to get things done, whose shoulder I could tap on," she said.

**DONALD G. JONES
LEADERSHIP ALUMNI AWARD**

Since then, Hyland jumped in with both feet, and then some. The ink was barely dry on her Leadership diploma before she was asked to join the board of FAVR. She was at the table when FAVR merged with Bethany House to become the Solutions Center.

“That was a lot of work,” Hyland remembers. “I learned quickly there are two kinds of boards – working boards and consulting boards. FAVR was definitely a working board.”

Today, the list of Hyland’s volunteer commitments is staggering. She’s on the Beacon House Foundation Board, the Hazotte Ministries Board (an arm of the Congregation of the Sisters of St. Agnes), the United Hearts for Health Committee (as treasurer), member of the Women’s Fund Board and the Leadership Fond du Lac Board and fills in all those spare hours by helping out at St. Mary’s Springs Academy.

It was another AC connection – her years serving on the Association of Commerce Board of Directors, including serving as chair in 2007 – that Hyland says took her volunteer experience to another level.

“The AC board opened my eyes to the pulse of the business community,” she said. “I learned so much.”

When asked what advice she’d give to the Leadership Class of 2010, Hyland doesn’t hesitate:

“Get involved right away. What you’ve learned will mean so much more if you get out and use it. Fond du Lac needs young leaders. Your employers expect you to use this new knowledge.

“There is so much you can do,” Hyland said.

Spoken like a woman who knows what she’s talking about.
